

## **S.T.E.A.M. SATURDAYS FAQ**

### **How much does it cost?**

The pilot is free. Grant support helps us cover tools, supplies, and staffing so families can participate at no cost.

### **Do caregivers have to stay?**

Yes. A caregiver must remain on-site for the full session.

### **Is this drop-off?**

No. This is a family program. Adults stay and can participate or support as needed.

### **What ages is this for?**

Students ages 6-12. Activities are designed to work across age levels, and we adjust as needed.

### **What if we can't attend after we register?**

Please cancel as soon as you can so another family can take the spot.

### **Can siblings attend?**

Yes, if they are aged 6-12 and each child is registered. Capacity is limited to 20 participants per Saturday.

### **What if the session is full?**

Please email Lucienne Auz at [lucienne@metalmuseum.org](mailto:lucienne@metalmuseum.org) to join the waitlist. If a spot opens, we'll contact families in order.

### **Will you take photos?**

We may photograph or video the program for education and marketing purposes, but photo permission is optional and chosen during registration.

### **How do you use family feedback?**

This is a pilot, so we'll end each workshop with a short follow-up survey. Feedback helps us refine lesson plans, supply kits, pacing, and accessibility supports before the full program launch.
